

HELPING SAVE CHILDREN'S LIVES

Every year in the United States over 1,000 children die and 33,000 are injured in accidents. Our objective is **prevention through education**. Safety Education is vital for children of all ages and should be an instrument for saving lives. No child deserves to hurt or die because of a preventable event.

The Western Colorado Safety and Health 4 Kids (WCSH4K) started in 2003 by Doris Van Ness, an Emergency Medical Technician (EMT) in Paradox Valley. Doris witnessed first hand the unnecessary injuries and deaths that could be avoided.

WCSH4S provided safety education to 999 children in 2006 and 2,023 in 2007 with the help of 82 volunteers from 30 organizations. WCSH4K works diligently within Delta, Montrose, and San Miguel counties to provide a well organized, standardized, and effective program to the schools. The WCSH4K leadership organizes, coordinates, and collaborates with other community groups, such as local fire departments, EMS personnel, law enforcement, gas and electric companies, etc. to fill the gaps in bringing **"Safety and Health Education Days"** to schools and other venues

Please consider partnering with us to 'help save children's lives.' Together we can make a difference by providing invaluable safety and health education.

Together we can make a difference
in the lives of our children!

Western Colorado Safety and Health 4 Kids (WCSH4K) is dedicated to working cooperatively with communities to promote child safety through public awareness and education.

Our purpose is to reduce and/or eliminate the number of preventable injuries and fatal accidents that occur each year to our children.

The **objectives** of the WCSH4K Program are to:

- Increase public awareness and identify the basic hazards that harm our children.
- Provide individuals, families, and communities with educational opportunities and resources to make their environments safe and healthy for children.
- Motivate and empower individuals, families and communities to make positive changes regarding safety and health issues.

Yes, I want to help sponsor a Safety Day:

- \$20 \$50
 \$100 \$150

Other: _____

I would like to donate as a **Corporate Sponsor**:

- \$200 \$1,000
 \$250 \$1,500
 \$500 Other _____

- Please send me more information on how I can participate as a volunteer.
